DB2 Web Query Enhancements

Session Abstract: Did you know that IBM has recently released a new version of DB2 Web Query with significant enhancements for IBM i / AS/400 customers. A few of the major enhancements include a whole new WYSIWYG tool for reporting/graphing and creating dashboards all in one, an adapter to read and understand JD Edwards data and enhanced integration and manipulation of dates that are stored as numbers or characters in DB2. You already own the product, come and see with it can do for you today.

Speaker: Jackie Jensen

Jackie Jansen is the IBM i Solutions Manager for Information Builders specializing in DB2 Web Query. Jackie spent 30 years with IBM working with small and medium enterprises. For the last 15 years she specialized in database and Business Intelligence in the IBM i / AS/400 marketplace. Jackie is an author and a frequent speaker at Technical Conferences and User Group meetings around the world. Contact her at jackie_jansen@ibi.com

Dawn Foods Parking Instructions

Visitors must park at the front of the building for admittance and a pass.

There is a sign at the Stop sign that directs visitors to the front of the building (turn right at the stop sign!)
